KADUNA STATE SCHOOL CENSUS REPORT 2014/2015

Kaduna State Ministry of Education, Science & Technology

Preface

The conduct of Annual School Census (ASC) in Kaduna State Ministry of Education, Science and Technology conducted its first ever Annual School Census, following the decision reached at the 54th National Council on Education (NCE) in 2007.

The findings marked the beginning of an authentic source of information on the status of education in Kaduna State. It serves as a major tool for providing information to assess and evaluate the progress in the implementation of our Education Sector Plan (ESP) using a set of monitoring indicators. In general, it provides valid information for policy implementation in the education sector.

In addition, it also serves as a reference document for proper planning and budgeting for the education sector, particularly the Medium Term Sector Strategy (MTSS).

In continuation of this process, and as a way of institutionalizing the Education Management Information System (EMIS), the 2014/2015 ASC was conducted to update the existing information.

The conduct of the 2014/2015 ASC was financed by Kaduna State Ministry of Education, Science & Technology and Kaduna State Universal Basic Education Board. The DFID-funded Education Sector Support Program in Nigeria (ESSPIN) provided technical support. The support includes training of enumerators, data operators, ASC software, and supervision, among others.

I wish to congratulate the Education Management Information System Unit of the Department of Planning, Research and Statistics in Kaduna State Ministry of Education, Science & Technology and Kaduna State Universal Basic Education Board.

Our special thanks go to our development partners, particularly ESSPIN, for their continuous technical and financial support for the implementation of reform programmes in the education sector.

It is my sincere hope that the information supplied in this report will go a long way in providing for stakeholders the authentic data for planning and decision making.

Dr. Shehu Usman Adamu
Honourable Commissioner,
Ministry of Education,
September, 2015

3	Kaduna Public Primary Repeaters by Gender and Grade	28
4	Kaduna Public JSS and SSS Repeaters by Gender and Grade	30
5	Kaduna Teachers by Grade Taught, Gender and Qualification Status	41
6	Kaduna Ranked Pupil Teacher Ratio (Primary) by LGA	42
7	Kaduna Ranked Pupil /Qualified Teacher Ratio (Primary) by LGA	43
8	Kaduna: Pupil Classroom Ratio by LGA in Public Schools	46
9	Kaduna: Number of Usable Classrooms in Need of Major Repairs in Public Primary Schools by LGA	48
10	Kaduna: Primary Pupil Toilet Ratio Ranked by LGA (Lowest Best)	61

Definitions

Dropout Rate by Grade

Dropout rate is the percentage of pupils from a cohort enrolled in a given grade at a given school year that is no longer enrolled in the following school year. It measures the phenomenon of pupils from a cohort LGA leaving school without completion, and its effect on the internal efficiency of educational systems. In addition, it is one of the key indicators for analysing and projecting pupil flows from grade to grade within the educational cycle.

Gross Enrolment Rate (GER)

GER is the total enrolment in Primary education, regardless of age, expressed as a percentage of the eligible official school-age population (6-11 years in Nigeria). It shows the general level of participation in Primary education. It indicates the capacity of the education system to enrol students of that age group. It can also be a complementary indicator to net enrolment rate by indicating the extent of over-aged and under-aged enrolment.

Gross Intake Rate (GIR)

GIR is the total number of new entrants in the first grade of Primary education, regardless of age, expressed as a percentage of the population at the official Primary school-entrance age (6 years in Nigeria). It indicates the general level of access to Primary education. It also indicates the capacity of the education system to provide access to grade 1 for the official school-entrance age population.

Net Enrolment Rate (NER)

NER is the enrolment of the official age group for Primary education (6-11 years in Nigeria) exPressed as a percentage of the corresponding population. It shows the extent of coverage in a given level of education of children and youths belonging to the official age group corresponding to the given level of education.

Pupil-Teacher Ratio (PTR)

PTR is the average number of pupils (students) per teacher at a specific level of education in a given school year. It measure the level of human resources input in terms of the number of teachers in relation to the size of the pupil population. The results can be compared with established national norms on the number of pupils per teacher.

Repetition rate by grade:

Repetition rate is the percentage of pupils from a cohort enrolled in a given grade at a given school year who study in the same grade in the following school year. It measures the rate at which pupils from a cohort repeat a grade, and its effect on the internal efficiency of educational systems. In addition, it is one of the key indicators for analysing and projecting pupil flows from grade to grade within the educational cycle.

Executive Summary

The 2014/2015 Annual School Census (ASC) was conducted successfully. Data from Public and Private Pre-Primary, Primary, Junior, Senior and Science & Technical Secondary Schools were collected, collated, cleaned and analysed. New software, developed by UNESCO Institute of Statistics (UIS) was used for data entry, cleaning and analysis. Although globally acceptable and user friendly, it did not go without minor challenges associated with first time usage in the system. The end result was efficiency, accuracy and consistency of data analysed.

The main areas covered by the 2014/15 ASC report for both Public and Private Schools include:

- Pupils'/Students' enrolment by gender;
- Teachers' statistics by gender;
- Pupil/Student Teacher ratio by qualifications and gender ;
- Infrastructure in Schools; and
- Other information.

The exercise achieved 99.3% response among Public Schools and 73.1% for Private Schools.

Enrolment decreased in Public JSS and SSS by 7.1% and 9.3% respectively, while it increased in Pre-Primary and Primary, by 8.4% and 2.3% respectively. Enrolment also decreased in Private Pre-Primary, Primary, JSS and SSS schools by 22.4%, 20.5%. 14.4% and 17.1% respectively. The possible reasons for the decrease could be attributed to the relocation of people during the election period and possible increase in school fees.

The report on teachers Statistics shows that the percentage of qualified teachers from 2013/2014 and 2014/2015 improved to 69%, 94% and 92% in Public Primary Schools, Junior and Senior Secondary Schools respectively. This improvement could be attributed to teacher training programmes and recruitment of qualified teachers.

The number of Pupils/ Students per classroom (Pupil- Classroom ratio) declined from 54:1to 67:1 in Public Primary schools and improved from 44:1 students to 41:1, 37:1 to 32:1 students in Junior and Senior Secondary Schools respectively. While that of Private schools at all levels remains 26:1 pupils per classroom. There is a steady remarkable improvement in the provision of some facilities such as water and sanitation, furniture and health facilities at all levels.

1

Background

In compliance to The *Nigeria Educational Management Information System Policy*, which was approved by the 54th National Council on Education meeting in Katsina in December 2007, Kaduna State established a fully functional Educational Management and Information System unit in the Department of Planning, Research and Statistics. According to the *Policy*, the National EMIS Committee is responsible, among others, for:

- Ensuring that EMIS is operational and understood uniformly around the country
- Facilitating the sharing of technical information and practices regularly to all institutions that provide Primary data for the management of education at any level
- Developing and monitoring compliance with EMIS policies and updating practice
- Clarifying information needs at all levels of the education system and encouraging the flow of data and the training of participants
- Evaluating the performance of the system and recommending actions

In August 2009, the National EMIS Committee approved the ASC Operational Manual, which is based on a census cycle that runs from August to July and also approved a simplified ASC questionnaire for the process. Mid-November was selected as the period for data collection.

The purpose of the school census is to provide yearly data to effectively monitor the state of the education sector and facilitate the use of information for planning and budgeting decisions. This unit has been responsible for the production of the State Annual School Census.

2

School Lists and ASC Coverage

The 2014/2015 ASC process started with the consolidation of the various school lists. This process, like the Previous ones, also involved the LGAs and parastatal at different levels. These efforts resulted in a single school list comprising of all sectors (Public and Private) and levels (Pre-Primary and Primary, JSS and SSS). However, after data collection it was discovered, as in the Previous case, that several schools were captured that were not in the consolidated school list, while some schools in the list were not captured, at least not with the same name.

Table 2.1 provides the details of the number of schools captured by level.

Table 2.1: Number of schools

	Public				
Original school list	**Pre-Primary and Primary ***	**Junior Secondary**	**Sci. & Tech Secondary**	**Senior Secondary**	**Private**
1A. Responded	4,225	411	18	309	1,018

1. Total	4,225	411	38	323	1,392
Response rate, original school list %	100%	100%	47.4%	95.6%	73.1%
New schools					
2. Total	0	0	0	0	0
All schools					
1A+2. Responded	4,225	411	18	309	1,018
1B. Did not respond **	0	0	20	14	374
1A+1B+2. Total	4,225	411	38	323	1,392
Response rate, all schools (%)	100%	100%	47.4%	95.6%	73.1%

* Includes Pre-Primary/Primary, Primary and Pre-Primary schools only
* A number of the non responding schools may no longer exist and may be due to inaccurate school lists
**To include 194 rearticulated schools in each case

Table 2.2: Number of Private schools by level

	Number of schools		Number of schools
Schools with Pre-Primary classes	926	Of which: Pre- Primary only	20
Schools with Primary classes	956	Of which: Primary only	37
Schools with Junior Secondary classes	462	Of which: Junior Secondary only	4
Schools with Senior Secondary classes	327	Of which: Senior Secondary only	0

Table 2.3: Number of Public schools, Enrolment and Teachers

Level	Number of schools	Number of pupils/Students			Number of teachers		
		Male	Female	Total	Male	Female	Total
All Pre-Primary and Primary	4,225	719,813	633,169	1,352,982	16,646	16,292	32,938
Junior Secondary only	411	80,798	66,217	147,015	3,333	1,968	5,301
Senior School only	309	55,368	43,815	99,183	3,471	1,716	5,187
Science & Tech.	18	3,854	2,217	6,071	377	94	471
Total	4,963	859,833	745,418	1,605,251	23,827	20,070	43,897

There are 32,938 teachers in Public Pre-Primary and Primary schools in Kaduna state. This has been broken down according to levels and gender.
**To include 194 rearticulated schools in each case

Table 2.4: Number of Public schools with special curriculum

Primary education	Number of schools	Number of pupils Students			Number of teachers		
		Male	Female	Total	Male	Female	Total
Islamiyya Integrated	105	5,166	2,641	7,807	160	72	232
Nomadic	211	16,320	15,028	31,348	611	208	819
Special needs	22	4,409	3,221	7,630	125	46	171
Junior Secondary education							
Islamiyya Integrated	0	0	0	0	0	0	0
Vocational	0	0	0	0	0	0	0
Science & Tech./Senior Secondary education							
Islamiyya Integrated	0	0	0	0	0	0	0
Vocational	6	1,208	170	1,378	96	50	146

The total number of pupils in Islamiyya integrated is 7,807. There is a decrease of 3816 over enrolment in 2013/14.
The total number of pupils in nomadic schools is 31,348. There is a decrease of 16,224. Possible reasons for the decrease include; insurgency and fear of possible crisis after 2015 general elections.

Table 2.5a: Selective characteristics of Public schools (Number)

D2. School Report Cards

School Report Cards are separately available on request for the majority of Primary and Junior Secondary schools in Kaduna. (See sample on next page).

Similarly, LGA Report Cards provide a comparable set of data for each LGA in Kaduna. Reports are available from the EMIS Unit at the State Ministry of Education, Science & Technology (See sample on next page)

Please contact the EMIS Unit at the State Ministry of Education, Science & Technology for any particular school report cards you require.

D3. Annual Education Sector Review 2014

Available from the EMIS Unit at the State Ministry of Education, Science & Technology

D4. Analysis Service

Available from the EMIS Unit at the State Ministry of Education, Science & Technology and SUBEB

D5. School Lists

Available from the EMIS Unit at the State Ministry of Education, Science & Technology and SUBEB
